

Kauã Gabriel

Front End Developer

I'm a developer passionate about technology and innovation. I always seek to create efficient and high-quality solutions. I am committed to continually learning and collaborating on projects that make a difference.

TECHNOLOGIES

React | JavaScript | TypeScript | Figma | Node
AWS | HTML | CSS | TailwindCSS

EXPERIENCE

Salt Systems

Developer

September 2023 - at the moment

I work in the development of billing tools for large fintechs, focusing on innovative solutions that optimize processes and improve the user experience.

Project: Portal Salt Systems [\(Link\)](#)

Project developed with the aim of renewing and modernizing the company portal, thus attracting more attention and making information better visible

Project: My Portfolio [\(Link\)](#)

Website developed for a family business with the aim of better integrating the company on the internet, thus bringing greater visibility to the business

**Among many others present in
my Portfolio and GitHub**
